### Primary Care Women's Health Survey

The Primary Care Women's Health Forum would like to conduct a short survey of members to understand the issues you are facing in primary care.

The survey should only take a few minutes but will help us direct our efforts in supporting Healthcare Professionals managing Women's Health in the UK.

Please click the button below to complete the survey, and feel free to forward to colleagues to do so too. Many thanks in advance for completing this.

[Please Click Here to Complete the Survey](#)

### GP Hot Topics

The Forum have teamed up with specialist event agency Events4Healthcare to deliver two one day events for GP's and nurses.

These events in London and Manchester will give delegates a quick overview of key issues in Women's Health from a GP perspective.

6 hours of CPD are available for delegates.

**Book Now**

**Manchester**, 24th April 2013

**London**, 1st May 2013

*Limited Places Available on a first come first serve basis*

### Impact of UK Eligibility Criteria Implementation on Prescribing or Combined Hormonal Contraceptives

The objective of this study was to assess the potential change in CHC prescribing among higher-risk women following publication of the UK Medical Eligibility Criteria for Contraceptive Use (UKMEC) in 2006.

## Evaluating Register-based Chlamydia Screening

A trial involving young people aged 16-25 years in the Netherlands reported that sending individual invitations to order home sampling kits via the internet is a feasible option for chlamydia screening. However, the programme did not increase testing enough to significantly reduce chlamydia prevalence.
